

Eurovision Trends from 2016 to 2022

About the Project

Topics:

- Eurovision **Poll, Public and Jury** Results comparison

Sites:

- Collection of **Jury, Public and Final** Voting ([Eschome](#))
- Collection of **Polling** ([Kaggle](#))

How are **Poll** opinions
compared to the
Public over the years?

How Eurovision is Scored

https://en.wikipedia.org/wiki/Voting_at_the_Eurovision_Song_Contest

Poll

- Internet and Fan **Predictions**

Public:

- **Live Voting** by the general Public (Tele-Vote, mainly messaging)

Jury

- **Experts** of the industry

Final

- The **weighted sum** of Public and Jury

Poll vs Public Similarity By Year (2016-2022)

Each point shows similarity between Poll prediction and what the Public voted

Kaggle - <https://www.kaggle.com/diamondsnake/eurovision-song-contest-data>
Spearman Similarity - https://en.wikipedia.org/wiki/Spearman%27s_rank_correlation_coefficient

Graph Information

#	Data Attributes	Attributes Types	Visual Channel
1	Year	Ordinal	X-axis
2	Similarity	Quantitative	Y-axis
3	Lowest agreement	Categorical	Text annotation

How did **Jury** influence
the **Final** outcomes in
the **worst** Year?

How Ranking Shifted in 2018

Line Colour Shows Effect Magnitude and Direction

Jury Effect on Voting

In 2018, the jury rewarded vocal polish, lifting Sweden and Austria despite public indifference, while penalising Ukraine's theatrical spectacle that crowds had embraced. Where production, craft and showmanship diverged, the jury and public went in completely opposite directions.

Graph Information

#	Data Attributes	Attributes Types	Visual Channel
1	Stage	Ordinal	X-axis
2	Rank	Ordinal	Y-axis (reversed)
3	Effect Magnitude	Quantitative	Line Width
4	Effect Direction	Quantitative	Line Colour Gradient
5	Category	Categorical	Line alpha (opacity)
6	Country	Categorical	Line Grouping & Labels
